When I Close My Eyes
Quincy Flint

No Capo
Key G

I still see your big brown eyes
And I can feel you by my side
When I close my eyes
When I close my eyes

I'll never make it out on the open road
Just lying awake all alone
Playing for pennies on this dirty street
Playing songs about you and me

I still see your big brown eyes
And I can feel you by my side
When I close my eyes
When I close my eyes

Your face still haunts my memory
Though I tried, I tried to be
A simpler man, a better man
Someone who can cry and will understand

I still see your big brown eyes
And I can feel you by my side
When I close my eyes
When I close my eyes

She's a victim of the games that I love to play
And I'm a victim of the love that she never gave
(Well) maybe 21 is too young for love
(But) maybe it's me and I'm not the one

I still see your big brown eyes
And I can feel you by my side
When I close my eyes
When I close my eyes

If happiness is the warmest hug
Then why are we out here wearing gloves
If she leaves she's gonna go
The sun is high but my head is low

I still see your big brown eyes
And I can feel you by my side
When I close my eyes
When I close my eyes
