

[G C, D G C, G C, D G C]

I'll never make it out on the open road
Just lying awake all alone
Playing for pennies on this dirty street
Playing songs about you and me

[G C, D G, B7 C, D G]

I still see your big brown eyes
And I can feel you by my side
When I close my eyes
When I close my eyes

[G C, D G C, G C, D G C]

Your face still haunts my memory
Though I tried, I tried to be
A simpler man, a better man
Someone who can cry and would understand

[G C, D G, B7 C, D G]

I still see your big brown eyes
And I can feel you by my side
When I close my eyes
When I close my eyes

[G C, D G C, G C, D G C]

She's a victim of the games that I love to play
And I'm a victim of the love that she never gave
(Well) maybe 21 is too young for love
(But) maybe it's me and I'm not the one

[G C, D G, B7 C, D G]

I still see your big brown eyes
And I can feel you by my side
When I close my eyes
When I close my eyes

[G C, D G C, G C, D G C]

The past ain't even the past
When we spend each night together
Hoping this moment can last
But knowing you've gone forever

[G C, D G, B7 C, D G]

I still see your big brown eyes
And I can feel you by my side
When I close my eyes
When I close my eyes
