

Intro Am G Am G (or CG CG)

C G | C G | Am Em | Am G C

With bated breath she holds my tongue
I tried to speak but the feeling's gone
You took my words and you wrote em down
And put them in a song

C G | C G | Am Em | Am G C

You rode off with tomorrow's dreams
You took half of everything
Half my heart and half my wings
Now I'm sleeping out wit the dogs

C G | C G | Am Em | Dm C G

Don't tell what we could have been
Don't ask me what I wished we'd been
All I have is where we've been
And you can't take that away

C G | C G | Am Em | Am G C

No time to weep no time to cry
Talk me down then dry your eyes
There ain't no need for a long goodbye
Cause this is just farewell

C G | C G | Am Em | Am G C

Trust that voice you hear at night
And all those feelings you tried to fight
Come what may you land upright
You always find your way

C G | C G | Am Em | Dm C G

Don't tell what we could have been
Don't ask me what I wished we'd been
All I have is where we've been
And you can't take that away

C G | C G | Am Em | Am G C

Sorrow comes and sorrow goes
Doors open while others close
But nothing's worse than a thought unsaid
And feelings gone unfelt

C G | C G | Am Em | Am G C

So reach down in your pocket dear
Find some truth and a dollar there
There ain't no time for lying here
Just take it on down the line

C G | C G | Am Em | Dm C G | Am G C

Don't tell what we could have been
Don't ask me what I wished we'd been
All I have is where we've been
And you can't take that away
No you can't take that away
