

Intro Am G Am G (or CG CG)

C G | C G | Am Em | Dm C G

With bated breath she holds her tongue  
She tried to speak but the feeling's gone  
I took your words and I wrote em down  
And put them in a song

C G | C G | F G | C G C

Don't tell what we should have been  
Don't ask me what could we have been  
Cause all I have is where we've been  
And you can't take that away

On tomorrow's wings

There's no time to weep no time to cry  
Talk me down and dry your eyes  
There ain't no need for a long goodbye  
Cause this is just farewell

Trust that voice you hear at night  
And all those feelings you tried to fight  
Come what may you land upright  
You always find your way

Sorrow comes and sorrow goes  
Doors may open while others close  
But nothing's worse than a thought unsaid  
And feelings gone unfelt

So reach down in your pocket dear  
Find some truth and a dollar there  
There ain't no time for lying here  
Just take it on down the line
