I've been hanging out in oh too many bars
Just watching (out the window) as the people pass me by
Hoping they'd stop and listen to (all the words in all) my songs
Not caring who I am or where I'm from

And I don't sing for the masses and the crowds
I just play the songs that come out of my mouth
But if you'd like I'll play a song for you
Like Johnny Cash or Waylon or the blues

The devil's hit the bottle once again
So pour one out for my brother on the other side of down
And hold your head up high, 'cause you lead a blessed life
And your cup is full of nothing, and that's enough for me

I'm wasting time just waiting for the night
'Cause that hanging moon's the only thing that seems to bring me life
Sometimes a spark ain't enough to raise a flame
Sometimes it's enough to bring the whole thing down
