I've been hanging out in an old forgotten bar  
Just watching (out the window) as the drunkards pass me by  
Hoping they'd stop and listen to every word in every song  
Not caring who I am or where I'm from

And I don't sing for the masses or the crowds  
I just play the songs that come out of my mouth  
But if you'd like I'll play a song for you  
If it's Johnny Cash or Waylon or the blues

The devil's hit the bottle once again  
So pour one out for my brother on the other side of down  
And hold your head up high, 'cause you lead a blessed life  
And your cup is full of nothing, and that's enough for me

I'm wasting time just waiting for the night  
'Cause that hanging moon's the only thing that seems to bring me life  
Sometimes a spark ain't enough to raise a flame  
Sometimes it's enough to bring the whole thing down

So raise a glass if you don't mind the sound  
Of a drunken fool just waitin' for his bud to buy a round  
Sometimes it's just that easy, and sometimes it's just that hard  
Sometimes the drinks are better in an old forgotten bar

The devil's hit the bottle once again  
So pour one out for my brother on the other side of down  
And hold your head up high, 'cause you lead a blessed life
