I'll never make it out on the open road  
Just lying awake all alone  
Playing for pennies on this dirty street  
Playing songs about you and me

**[G C, D G, B7 C, D G]**

I still see your big brown eyes  
And I can feel you by my side  
When I close my eyes  
When I close my eyes

**[G C, D G C, G C, D G C]**

Your face still haunts my memory  
Though I tried, I tried to be  
A simpler man, a better man  
Someone who can cry and would understand

**[G C, D G, B7 C, D G]**

I still see your big brown eyes  
And I can feel you by my side  
When I close my eyes  
When I close my eyes

**[G C, D G C, G C, D G C]**

She's a victim of the games that I love to play  
And I'm a victim of the love that she never gave  
(Well) maybe 21 is too young for love  
(But) maybe it's me and I'm not the one

**[G C, D G, B7 C, D G]**

I still see your big brown eyes  
And I can feel you by my side  
When I close my eyes  
When I close my eyes

**[G C, D G C, G C, D G C]**

The past ain't even the past  
When we spend each night together  
Hoping this moment can last  
But knowing you've gone forever

**[G C, D G, B7 C, D G]**

I still see your big brown eyes  
And I can feel you by my side  
When I close my eyes  
When I close my eyes
