Now that I'm moving on
Don't you dream of crying
I'm living in my songs
You're living in the moment

Tomorrow brings another day
And the blossoms keep a blooming
That'll be our secret way
For me to say I love you

[F G CG CC | F G CG CC | G C FG C | F G FG CC]

I Wish we had a few more days
Or one more night alone
But now you sit alone and pray
For one less sleepless night

I'll be with you in the morning
The evenings if you like
We can spend all night just laughing
Or crying by your side

[G C FG C | G C FG C | F G CG CC | G C FG C]

You can find me at the lake
When you need someone to listen
I'm your quiet company
'Til the wind gets settled in

Then I'll blow until you're tired
Or the leaves come falling down
When the sun comes in the morning
You can feel me all around

[C G FG CC | C G FG CC | G C FG C | C G FG CC]

So read me twice and go on living
I've finally said my peace
You'll keep on a changing
And I'll keep being me

You can keep me in your pocket
Or in a picture on the wall
Or better yet just think of me
And how I loved you through the song
