

Libby from Montreal had me down upon my knees
Had a barrel 'tween my eyelids and a scarf between my teeth
She took my money, and she took my pride
She sure did something to me I could feel it deep inside

G G D C x4

I just cashed my paycheck got a pocket full a tens
I'm going down to her corner hoping she comes round again
I polished up my boots I straightened out my hat
She'd be such a fool to pass up a rich man like that

Please, please, baby won't you please marry me
You can take my money if you take my diamond ring
We can build a house start a family
Please, please, baby I'm down upon my knee

C C G C x4

The devil's in the details but he don't come up here
It's been real good week but it's been a real tough year
The working has been hard and Libby's being mean
But I know behind her rifle is a heart that is so sweet

Please, please, baby won't you please marry me
You can take my money if you take my diamond ring
We can build a house start a family
Please, please, baby I'm down upon my knee

I've been seeing Libby on her corner every day
She took all that I got now there's nothing left to take
I heard she's heading south down into the states
Gonna find her a rich man just another heart to break

Please, please, baby won't you please marry me
You can take my money if you take my diamond ring
We can build a house start a family
Please, please, baby I'm down upon my knee
