

March 2022

No Need to Stand  
**Quincy Flint**

No Capo  
Key D

I don't care what they say  
There's no right or wrong way  
A road walked is a choice made  
You leave some behind

I don't care if the sun shakes  
The clouds in the sky don't break  
In time though the heart may ache  
It will all be fine

Each song is a new day  
In the wake of a loss you pray  
For the wounds of yesterday  
Don't stay too long

For every moment is your choice  
Speak loud with a soft voice  
Stay calm and remain poised  
When she's gone too long

**There's no saint without the sin**  
**No Lord gonna let you in**  
**No song too long it can't be sung**

**There's no time without your hand**  
**No great truth to understand**  
**No true love without a little hurt**

Shake hands with the lost time  
For growing old don't make you wise  
Til you learn it's a sacrifice  
To live your life

And honey will you stay  
When the hairs on my head go gray  
The river fills with ratlesnakes  
Can we begin?

Face the day with a clean mind  
For lovin' is a compromise  
Fall hard in her deep (blue) eyes  
When she sings along

**There's no spring without the rain**  
**No heal without the pain**  
**No need to stand you fall**
