If you knew what's good then you'd let it rest
So pour me a cup, no, make it two
Cause lord I got them coffee deficiency blues

I get up in the morning when girls in bed
And if I don't get no mud then I might's well be dead
You'll break my heart if that can is through
Cause Lord I got them coffee deficiency blues

That the one and three was the number four

Cause Lord I got them coffee deficiency blues

My woman took my rifle says I lost my mind
The world's been turning but I ain't cryin'
She put me down it was front page news
Now I sing them coffee deficiency blues
